1. About Samvedana

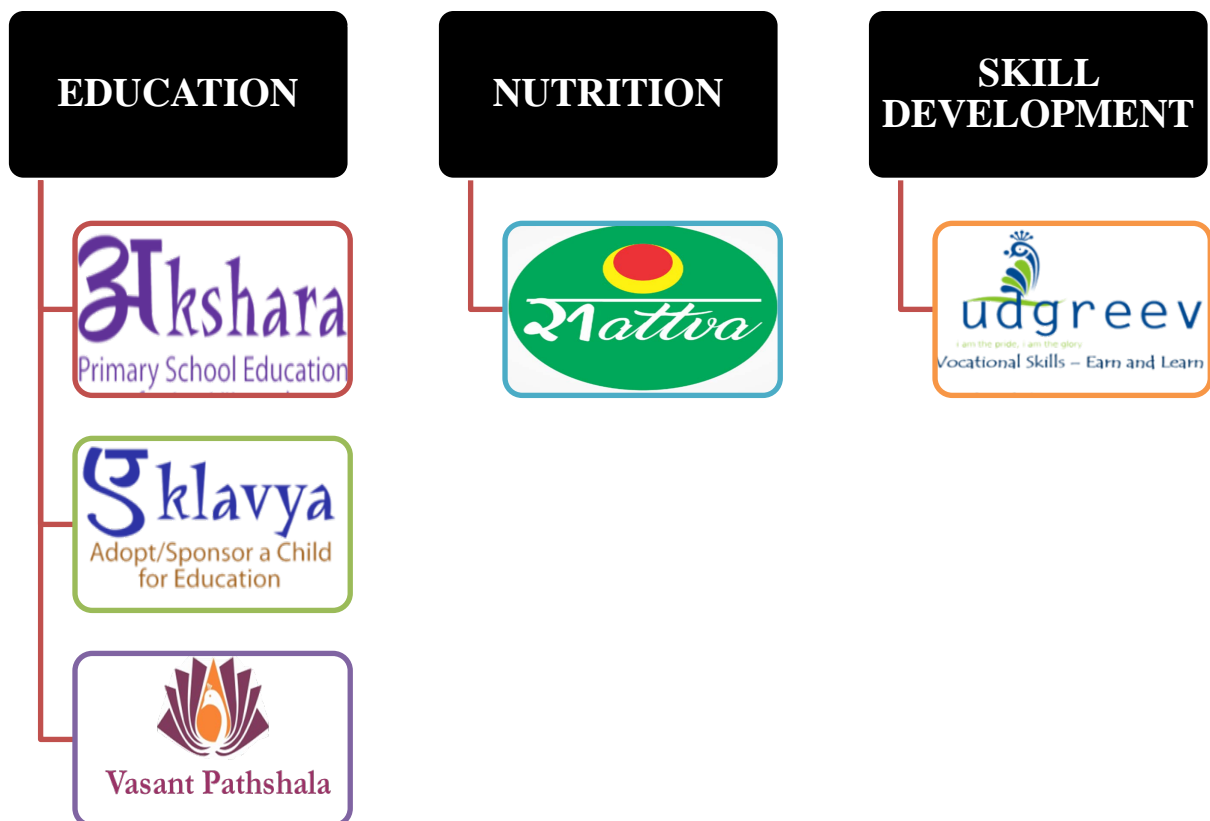

Samvedana is a non-profit organization registered under Bombay Public Trust Act, 1950. It is also registered under section 80G of Income Tax. Samvedana is working for the integrated development of slums with a focus on education and health of socially and economically deprived children.

Samvedana is committed to provide meaningful and purposeful life to the vulnerable underprivileged children, youth and women with a focus on education, nutrition and skill development.

Along with education, Samvedana has partnered with the government as a proactive catalyst with the ICDS project. Under this initiative Samvedana monitors and adds value to 76 aanganwadi's in the city of Ahmedabad.

Samvedana is privileged to have reached out to over 200,000 lives through its various initiatives since its inception in 2003

Samvedana Initiatives

2. Sattva

Samvedana planned and initiated 'Sattva' a 100 day drive for 705 malnourished children from amongst the 76 Aanganwadis in the area of Thaltej, Chandlodiya and Ghatlodiya in the city of Ahmedabad to eradicate malnourishment from children.

3. Project Rationale: Malnourishment amongst children below 6 years in Gujarat

The Socio-Economic Review of Gujarat has revealed that 1.47 lakh of the 43 lakh children at Aanganwadis in the state were found to be suffering from severe acute malnutrition (SAM).

The revelation underscores how malnutrition continues to remain a challenge in Gujarat, an economically progressive state whose development model is to be replicated across India by the Union government.

The Socio-Economic Review of Gujarat 2015-16 says that the Gujarat government in May 2015 had decided to make the state free of malnutrition.

With deep seeded desire for nation building, we proactively took up this challenge to play our part as a partner with ICDS.

Sattva Manual for mother's counselling

4. Pilot Sattva

Samvedana's personal Intervention with 100 children from age of 1 to 5 years in 11 Aanganwadis.

During interaction with ICDS, Samvedana found a dire need to fight against malnourishment amongst Aanganwadi children. Samvedana adopted 100 children from amongst 11 Aanganwadis. We started discussing with friends who were doctors, nutritionist, etc., and formed a small core team of people from diverse background, chaired by Samvedana's Founder Mrs. Janki Vasant.

While discussing and understanding the grass root realities and the challenges, we learnt:

- It was important to monitor what they eat at home regularly.
- As the children were exposed to junk food, they don't show interest in eating the nutritive food offered at the center.
- The young uneducated mothers, distraction of TV, skipping meals etc. are making the problem of malnourishment more severe.
- Hence, it is important to educate the mother's about the devastating effect of malnourishment, and how in very simple manner they can help bring their child to good health.
- Educate them about importance of hygiene and sanitation.
- Create awareness amongst the mothers as well as their surrounding society about the negative impact of malnourishment.
- Motivate them to send their children regularly and taking the maximum benefit offered by Aanganwadi centre.

Based on the challenges and expert advice, we set a plan.

The plan was:

1. To reach out to these children with nutritive food at least once in a week, we had orientation meeting of all the workers & helpers from the selected Aanganwadis on 15th June, 2015.

2. Priyal Gandhi a pre-medical student from America as an intern led this pilot project under the guidance of Doctors and Mrs. Janki Vasant. Educating the mother by Samvedana's Sakhi team includes counseling mothers by PPT & Flashcards to show the disastrous effect of malnourishment& the food included in a balanced diet plate.3 welfare initiatives consisting of distribution of grocery kits, tarpaulin sheets during monsoon and giving 250 Gms coconut laddoos and date laddoos during Diwali were carried out. Prizes were given to the worker helper women, who's Aanganwadis showed positive results.

Result of Pilot Sattva

No of aanganwadi's	10
Area	Thaltej (Sola, Bhammariya, Bhadaj)
Total children	100
Boys	42
Girls	58
In red	25
In yellow	75
Upgraded total	60
Boys	26
Girls	34
From yellow to green	43
From red to yellow	17
Not affected	40
Migrated	20
Other 20	Minor increase in weight, no change in grade.

Weighing of child during Pilot Sattva

5 Aim & Objectives of Sattva:

This project aims to eradicate malnourishment amongst the 705 malnourished beneficiary children of the above Aanagnwadis.

1. Give nutritive supplement as advised by Sattva's medical experts based on the micronutrient deficiencies.
2. Food is not the only criteria to bring the results aspired. We have a plan of working holistically.
3. Educate the mothers with Sattva's education manual based on our research and experience on the field as well as guidance of our medical experts. We counsel women on fortnightly basis for educating the mother around nutrition facts and hygiene. We believe, it's not just feeding children at the center, but educating the mothers is vitally important for the success of the program.
4. We have designed a manual of early learning program with children. Through inclusion of volunteers, this adds happy energy to the centers.
5. We believe wellness is not just food for body but also for soul. We compiled 1GB of children music, gave pen drives and speakers to each centre.
6. Create awareness around hygiene, nutrition, gender awareness and skill training amongst the Kishoris and women through Happee workshops.

6 Activities under the project

The proposed activities for this project will be mainly:

1. Taking the weights of all the 76 Aanganwadi centres. Identify the red and yellow rated children. Maintain separate software for all yellow and red rated children.
2. Plan the diet with the help of experts. We have Dr Deepa Banker, Paediatrician in our team along with Ms.Sohini shah, a Nutritionist along with a committed team of 15 from Samvedana. This is crucial to monitor meaningful and sensitive implementation of the project considering large number of aanganwadi's without workers or helpers (not recruited in a long time)
3. Execute the cooking as well as distribution of the special food for the children in yellow and red zone regularly during the three months. This is done by the distribution team.
4. Have regular fortnightly meetings with the mothers of children in red and yellow zone to spread further awareness about importance of hygiene and nutrition, and bring forth the dangers of her child being a SAM child through the specially designed flash cards by Samvedana. This meeting will be taken by our counselling team oriented by the medical experts.
5. Early Learning Education for 3 to 6 years children round the year.
6. Maintain and analyse all data on Sattva's software.
7. The child care and education programme will have nutritious food distribution and health check up programme as well.
8. "Happee Summer", a special summer program for children and kishoris during summer vacation with volunteers.

Weighing of each and every child during fortnight counseling

Measurement of height during counseling sessions

Saturday	Gram flour laddos		Sweet potatoes with lemon		Dudhi na thepla and murabo	

10.Route Details

SATTVA FOOD DISTRIBUTION - ROUTE DETAILS

11. Special interventions of Samvedana

1. A special **“meditation retreat”** was organized for all the Aanganwadi helpers and workers by Ms Nirali Shah faculty from ULCA California. It was very powerful session where all women realized value of self reflection.

2. In order to make the project effective monthly area wise **debrief sessions** with worker women were regularly organized during Sattva 1 drive.

3. Through Sattva program children indentified with medical needs were taken up for **health check at VS hospital**, and were given medical support. A few cases where special attention was required were taken to private hospital.

4. **"Kidznest program"**, an elite software program for e-learning aimed from toddlers to nursery children is introduced in four Aanganwadis of Thaltej area. This program is shown to the children on TV where they learn through audio-visual senses. As the program was designed in an entertaining form, the children learned quickly and easily.
5. **"Diwali mela"** full of fun, entertainment with rides, music, games and food was organized at Ghatlodia Calorx School enjoyed by 1200 sattva children and mother's.

6. **“Happee shopping”** a special shopping event to distribute clothes and more to the beneficiaries through mock display and monopoly money. This makes charity distribution with self dignity and choice.

7. Sattva 1 was concluded through **grand celebration**. Along with Navratri festive fever, we planned a story telling session- here, each anganwadi shared one powerful success story of Sattva in their anganwadi's respectively. Which was followed by awards and prizes for the best performing anganwadis as incentives.

8. **Holi Celiberation** by Samvedana Trust with the sole purpose of kids being aware about the festival. Also to teach them the values and lessons associated with the festival. The story of Holika dahan was narrated to the kids.

9. **Pot distribution.**

Samvedana distributed pots in all the Anganwadis in summer. The aim was to provide cool water to our children and workers and helpers. The idea is to avoid the usage of plastic bottles in summer.

10. Rasoi Show

When Rasoi show for balbhog is organised by I.C.D.S, organisers also planned for the worker ladies of the Aanganwadis. All the workers cooked the dishes they knew and in their capacity. All of them had food together at the end of the event.

11. Sanjeevani Sachets

All the children who are suffering from malnourished are given Sanjeevani sachets. It is feeded to children for one month on regular basis. Ahmedabad Municipal Corporation distributed these sachets. Total of 206 children were given these sachets,, out of which there was weight gain of 95 kids and weight reduction of 24 kids. 41 kids migrated and 15 kids left the program in between. Parents of 3 kids said no for Sanjeevani food packets. Some of the kids even faced problem of diarrrohea and vomitting. But overall their was a weight gain of majority.

11. Distribution of Raagi ni Sukhdi to pregnant women.

During school celebrations, Samvedana distributed Raagi ni Sukhdi to pregnant and lactating women. The main objective behind this distribution was to give nutritive food to both mothers and child.

12. Yoga Day Celebration.

Samvedana celebrated International Yoga day on 21st June 2017 in all 76 Anganwadis. Kids performed different yogas according to their age. All the worker and helper staff also performed yoga along with kids. It is very important to make kids understand the importance of exercise and yoga at a very early age.

13 Helping the flood affected people.

During heavy rains in Ahmedabad, Samvedana went out and helped the people who were badly affected by the same. First Samvedana surveyed all the areas under 76 Anganwadi. After recognising people who need help, Samvedana organised three days of food distribution. We gave food to more than 2000 people and tarpaulin to 60 people.

14. Distribution of trauplin to flood affected people.

15. Janmashtami Celebration.

Samvedana celebrated Janamastami festival in different Anganwadis. The actual play of krishna birth and the importance of the festival was explained to the kids.

16. Teaching Activity.

Samvedana's counsellor organises teaching activities in all the Anganwadis. It includes activities like exercise, drawing & painting, children melodies and gross skills. Activities which are essential for the holistic development of the child.

17. Celebrating Rakshabandhan and medication program with Brahmakumari Sisters.

For the inner strength and mental peace of our staff, Samvedana organised a medication camp in association with Brahmakumari. Worker staff of Thaltej ward successfully completed one week long course of Rajyog. Along with this, Rakshabandhan was also celebrated with Brahmakumari staff.

12. Volunteer Intervention

1. Through Samvedana many individual volunteers and organizations visited different Anganwadis and contribute their valuable time with children

2. Anandniketan school and wallroos pre primary school has a buddy programme with our anganwadis where anganwadi children found themselves privileged. Apart from that we have ongoing birthday and festival celebration plans through volunteer interventions.

Anandniketan school children celebrated "Happy Buddy Program"

Aditi Dani adopted one malnourished girl in Shilaj Aanganwadi.

3. Summer camp.

Every year Samvedana organises Summer camp with the school children. But from this year for the first time we organised summer camp with our Aanganwadi children. We got a positive response from kids, their families and also worker and helper staff. Various activities like drawing, children songs and dance, story telling, and self confidence building activities were conducted in the summer camp. Every day nutritive food like fruits, mango juice and ras – puri was giving to the kids. Volunteers from various colleges like Nirma and HL participated in the summer camp.

4. Birthday Celebration.

Rather than celebration one's birthday through conventional ways, many sensitize people celebrate their birthday with our kids and make it special for both themselves and the kids.

5. Tithi Food Distribution.

Many donors carry out food distribution with our kids on auspicious day of the week. Generally food items contain mix vegetable gravy, mag ni daal no sheero and rice & dal.

6. Rakshabandhan Celebration

All the 76 Anganwadis under Samvedana celebrated Rakshabandhan where all the girls tied rakhi to Anganwadi boys. Rakhis and chocolates were distributed. Workers explained the importance of the festival to the kids and also the story behind Rakshabandhan.

7. Buddy Program

Under this program, kids of Anand Niketan school celebrate their birthdays by distributing milk bottles to the Anganwadis. And on every Monday we distribute as many milk bottles we have collected to different Anganwadis.

13. Results

Sattva 1.1 Results

Sattva 1 drive showed very positive reports where total 233 children were upgraded from a total of 705 malnourish children.
